

Dear Dr David,

Congratulation for Launching Mars Foundation on May 23rd 2007. We are at Sanglah Hospital- Bali feel very proud to be a part of your services. It is still fresh in my mind at Emergency Department when we were in the center of trouble of first Bali Bombing. Hospital were very crowded, dirty and not organized well, the gentlemen with unique hair style approached me with sincere smile; "what can I do to help you" I were asking some help for cleaning services (it is a simple thing in daily life, but will be complicated if you are in disaster time) you gift me a number at Nusa Dua to called, and people from hotels in Nusa Dua come up with cleaning service and clean linen for our patient. Thank God.

Years after you and Claire come back to Sanglah. It is need time to recognized you until I remember your unique hair still; please don't change it. Now you organised huge of donation for Sanglha Hospital and some other hospitals in Bali Region. Thank you very much for an endless support from Mars Foundation. See you soon in Bali.

Best regard for Madame Claire. She is a great lady.

Wayan Sutarga and Friends at Sanglah Hospital.
